

Normal Swiss Lace Or HD Swiss Lace?

Swiss Lace

HD Lace

Henan, Xuchang, Apr 23, 2021 ([Issuewire.com](http://www.Issuewire.com)) - The earliest hair wigs are simple and crude. Ancient Egyptians wore wigs to shield their shaved heads from the sun at work. With society moving forward, people began to pursue beauty by wearing wigs. Most people choose to wear hair wigs not only for having good appearances but also for comfort and convenience. Lace wigs are upgraded from regular hair wigs that can offer more natural hairlines and more comfortable, breathable feelings.

There are two main types of lace wigs in the wig market: normal Swiss lace and HD Swiss lace. Which

one is better? Normal Swiss lace or HD Swiss lace? What kind of lace wigs is perfect? How to care for an HD lace wig in daily life? For more details, please kindly read on.

1. Swiss Lace VS HD Lace

1.1 Swiss Lace

Normal Swiss lace has two different lace colors: medium brown lace and transparent lace. Different lace color matches with different skin-colored people. For example, transparent lace is more suitable for light-skinned color people. On the contrary, medium brown lace fits dark-skinned people better. If you ordered related normal Swiss lace wigs in [Yolissa Hair](#), warehouse personnel will arrange shipment(Swiss lace colors random delivery).

1.2 HD Lace

Compared to normal Swiss lace, HD lace is its upgraded version. HD means “high definition”. An HD lace wig mainly has the following three features:

- 1) HD lace is very light, soft, thin, comfortable for the scalp.
- 2) Make the hairline more natural and highly undetectable.
- 3) Melt into scalp perfectly, match all skins, no more lace tinting

2. Four Main Types Of Lace Wigs

After reading these introductions, you may have a general understanding of normal Swiss lace and HD Swiss lace. Then I will recommend some typical [lace wigs](#) for your references, four lace wigs all have normal Swiss lace and HD Swiss lace for your choice. Every lace wig has their own advantages, believe there is one type can satisfy your needs.

2.1 [13x6 Lace Front Wigs](#)

2.2 [13x4 Lace Front Wigs](#)

Lace front wigs are hot-selling in our store. Because lace frontal has a 13 inches width that can cover a human’s forehead from ear to ear. People can get a more natural and real hairline in this way. According to the different depth of parting space, lace front wigs can be divided into two sizes: 13x4 lace front wigs and 13x6 lace front wigs. These two lace front wigs are roughly the same. The main difference is 13x6 lace front wigs have 6 inches deeper parting space.

2.3 [6x6 Lace Closure Wigs](#)

2.4 [5x5 Lace Closure Wigs](#)

Lace closure wigs are different from lace frontal wigs. Lace closure wigs don’t have 13 inches in width as wide as lace front wigs. Every lace closure wig only has a lace closure which has the same length and width set in the middle of the head. It has also caused by its lace area, the price of a lace closure wig will be more affordable and competitive than a lace front wig for most people. Besides, the installations of lace closure wigs are also easier and more convenient, even no need to use glue.

3. How To Care [HD Lace Wigs](#)?

For more comforts and more natural effects, most people will choose HD lace wigs. Also, because HD lace is an ultra-thin, ultra-premium lace. You need to pay more attention to daily care. Here are some care tips:

3.1 HD lace wigs need to be handled with care. No matter you are washing it, combing it, installing it, light with light. Not too hard, or it might be ripped apart.

3.2 Try not to bleach knots.

3.3 Don't restyle the HD wigs frequently

3.4 Choose air dry.

3.5 Take it off before going to sleep.
