

Renovate your Supply Chain with Stockarea.

Maharashtra, Mumbai, Apr 18, 2021 ([IssueWire.com](https://www.issuewire.com)) - Stockarea, one of the biggest [third-party logistics](#) partner in India, is changing the traditional way of doing warehousing. With on-demand warehousing and pay-as-you-go model, Stockarea is disrupting the Logistics Sector in India. With more than 1000+ warehouses and fulfilment centres across the nation, Stockarea provides all types of logistics and warehousing services for your business.

“We have more than 200 happy customers now. Stockarea has helped them reduce their operational costs by more than 30%. With reduced costs and fulfilment time, their supply chain has become more efficient and reliable”, said Arjun Kapoor, Managing Director at Stockarea.

Stockarea provides a scalable and flexible warehousing model, which was not possible a decade back. You can set up your complete Supply Chain with zero capital expenditure with Stockarea. From Customs Clearance till the Last Mile, Stockarea can manage every node of your Supply Chain. They provide a cloud WMS solution called their ‘Digital Warehouse’ where customers can monitor their Inventory, Orders, Inbounds, Invoices and other data, all in real-time.

“Right now, we are actively looking for smart warehouses. We are investing heavily in IoT to make our warehouses more efficient. With ten thousand orders a day, human is a lot prone to error. We are looking in for IoT enabled warehouses and are planning to expand in that direction.” - said Kapoor.

Stockarea is experimenting and innovating new ways to do Warehousing. They are providing “Warehousing-as-a-Service” just like any other cloud service. Stockarea will also be integrating its cloud WMS with other e-commerce sales channels like Amazon and Flipkart soon. They are making an infrastructure that could benefit both Enterprises and small retailers and wholesalers who want to sell online.

Make Stockarea your [3PL provider in India](#) and set up warehousing contracts across India with just a few clicks. Set up your next [warehouse storage in Bangalore](#), [cold storage in Delhi](#) or [fulfilment centre in Mumbai](#) in just a few minutes. Managing your inventory has never been easier.
