

RideBoom Launches Its Much Awaited Bike Taxi Service and Is an Instant Hit

Launched In Chandigarh and For Adjoining Towns, This RideBoom Service Follows Their Cab Service Into Popularity And Satisfaction.

Punjab, Mohali, May 1, 2021 ([Issuewire.com](https://www.issuewire.com)) - Popular taxi service RideBoom has launched its bike service in Chandigarh. The service is currently intended to just be for Chandigarh and for towns within a limited distance from it. Customers can simply download the app, register, choose where they want to go, and voila! The bike taxi will be right at their doorstep! But the key factor? The taxi will be at their doorstep in record time.

Compared to other services, RideBoom Taxi service is extremely popular for some of its services. Their partnering drivers are vetted the most heavily of all to eliminate the chances of hiring undesirable actors. They also have the option of choosing women drivers for women passengers. They have a strict No Surge Pricing policy thereby making it the most fair-value company in the market. Apart from these, they also use number masking technology, red alert panic button, and sharing the ride with an emergency contact makes RideBoom the most sought-after ridesharing service that will soon see more expansion across India. Add this to the fact that for each ride, the customer can collect coins!

"One of our chief aims is to provide complete security to our passengers. They should get the feeling of riding in their own vehicle with a close family member. That is how we train our driving partners to behave with our riders. Impeccable and spotless character is our specialty and so is a policy against surge pricing. We are strictly against cabs and cabbies swindling customers, especially when they need rides the most. Add to this our "Select Your Gender Driver" option for both women and non-binary

people. We have received awesome responses from our riders and we want to keep this going, soon on a pan-India basis. Join us on our RideBoom app and take advantage of the safest car taxi and bike taxi rides in India", said the Founder of RideBoom, HarminderMalhi.

Important Notice - RideBoom is also providing ambulance service to anybody needing it around Chandigarh Tri-City. Now you can Book your ambulance in the app if you live around Chandigarh, Mohali, and Panchkula.

About RideBoom:

RideBoom is a ridesharing service operating in Punjab that offers peer-to-peer ridesharing. Its services also include taxi service and parcel delivery. For its policies of no surge pricing and total security for passengers, RideBoom has been hailed as the best cab service in the state, especially the Tri-City zone.
