HOME!!

# SAVE THE DATE

## **New Jersey, Morris Township, Apr 22, 2021 ([IssueWire.com](http://www.IssueWire.com)) - Run for the Rosés and other Wines - Fundraiser Event**

In New Jersey over 30% of minority students drop out of school. New Jersey has the 3rd largest number of segregated schools in the nation.

Platinum Minds is a non-profit leadership/ educational development program, with the mission to help academically motivated boys from underrepresented communities with leadership and educational development skills so they excel and become positive role models to the community.

The organization supports the vision that boys from different circumstances and backgrounds can and should have the opportunity to learn about and from one another with an interest in developing a society where all people are given equal opportunities and are able to live harmoniously with a common goal of building the strongest nation in the world. And that better life begins with greater access to educational opportunities, a positive, encouraging, and safe place to develop, and an environment where all boys feel accepted, valued, and appreciated.

Platinum Minds provides opportunities for boys to learn about the world around them and to become well-educated, intelligent, compassionate, leaders of integrity.

On May 13th event: "Run for the Rosés and Other Wines" we will have an unforgettable event, where you will have the opportunity to taste a great selection of wines and cheeses while helping to realize the right of a child to have a quality education.
