

Satpal Bohit a professional barber in rajasthan

Satpal bohita professional barber in rajasthan at hanumangarh

Rajasthan, Hanumangarh, Apr 14, 2021 (IssueWire.com) - Satpal Bohit is a professional barber in Rajasthan at Hanumangarh he started his career in 2010 and now he is a professional barber and he is good experience in his work.

He suggested some steps to style short hairs that are given below.

*How To Style The Quiff

So, you have one of the most popular men's haircuts. What's next? How to style short hair with a quiff so that it would be out of competition? Here are some simple steps to follow:

1. Take your favorite pre-styler, for example, a voluminous mousse. You are going to use it, in the same way, how do you use pomade for men.
2. Spread it all over your hair.
3. Set the blow dryer to a medium temperature so that it won't damage your hair. Blow-dry your locks to your "better-looking" side. To add more volume, you can blow-dry it several times back and forth.
4. As soon as your hair is completely dry, scoop a bit of your trusty hair styling product, like hair clay, wax, or pomade.
5. Rub the product between your hands to warm it up a little.
6. Apply it to the top hair, starting from the back and moving forward to the front.
7. Style your quiff up to the "best" side. To give the look a little messy attraction, grab some more styling product and pierce together the hair at the side parting.

If you're looking for more breezy short hairstyles men with a quiff would do, here's a simple alternative. Skip the blow-drying part as well as the pre-styling product. Brush your fingers through the quiff and style it to the "best" side, creating a light wave. To finish the look-up, pierce the hair at the front with your fingertips.
