

Shop on Ubuy Saudi Fashion Store and Get “Free Shipping”

Saudi Arabia, Central Province, Apr 6, 2021 (Issuewire.com) - Ubuy Saudi, a popular global cross-border shopping platform in Saudi is offering free shipping for customers who buy anything from their fashion store which is available on their app and website.

Every online shopper would love to see the words “FREE Shipping” whenever they shop for anything online. Sometimes shipping charges can be quite expensive in certain locations and customers would end up paying a lot of money as shipping charges. Some retailers offer free shipping once the customer hits a minimum spending limit to become eligible for free shipping, etc.

But, Ubuy offers all its customers shopping in their fashion store, the opportunity to enjoy “FREE Shipping” and save money by avoiding all the shipping charges. There are no particular conditions to enjoy this benefit since it is applicable for all items in the fashion store. Customers can also get up to 15% off when they shop at the Ubuy fashion store.

About Free Shipping

Whenever people pack and send anything from one place to another it does incur a cost. This cost is higher especially when people send stuff overseas. All retailers cannot afford to bear this additional cost and hence charge the customers for the shipping. These charges will depend on how heavy the items are and also the distance it has to move before reaching the customer.

The shipping charges for products can cost more if the customer requires them faster. But some retailers like Ubuy do offer “FREE Shipping” to all their customers for a particular time period or during special promotions. This helps the company to attract more customers and help people buy more stuff, without worrying about the shipping charges.
