

Uneecops Technologies Achieves SAP Platinum Status

Uneecops Technologies bags the most coveted award from SAP making it India's first SAP Business One platinum partner

Uttar Pradesh, Noida, Apr 6, 2021 ([Issuewire.com](https://www.issuewire.com)) - Uneecops, a CMMI Level 5 company, and an end-to-end digital transformation partner has recently announced that it has received the SAP Platinum status marking one of the biggest milestones and achievements in Uneecops history. Uneecops already has a stellar reputation as a trusted and most reliable SAP Gold partner in India simplifying the complex landscape of businesses.

Founded in 1995, Uneecops' client base extends across the public and private sectors in India, South East Asia, Africa, and the US, providing solutions to 1,800+ customers across 18 industry verticals. Over the years, Uneecops has attained one of the most prestigious positions as **Asia Pacific Japan's #1 Partner** owing to its relentless pursuit of excellence, robust support, and rendering exact business solutions to clients. Some of the latest awards of Uneecops include-

- SAP Business One India Subcontinent Impact Partner of The Year 2019
- SAP Business One India Subcontinent (North) Partner of The Year 2019 Business Acquisitions
- SAP Pinnacle Award 2019 in the "ERP Partner of the year - Small & Midsize Companies" category
- Top partner- Net New Names- Asia 2018
- SAP SME SEEDx award in the "Digital Trailblazer Category" for "Connectrix Application"

Uneecops has been with SAP for over decades and name to confide in but now with SAP Platinum partner status, you are closer to partnering with one of the biggest, proven, and trusted SAP partners in India. This platinum status is offered on a business case that is reviewed and approved by the SAP executive board.

Uneecops relishes a trust and great bond with its clients. If we talk about their clients, Mankind Pharma, Revex Group, Gopal Corp Group, Fujikura, Select City Walk are few household names that have relied on Uneecops for its expertise in implementation, migration, cloud services, support, and digitized their business processes with smart ERP solutions.
