It is a very popular hair type of human hair lace wigs, partly because people of all countries are interested in it. The store page also likes to recommend these water wave lace wigs to all customers. People who are wig beginners may be curious about why these water wave lace front wigs are popular with people all over the world. Today's article will talk about it in detail. Please kindly read on.

1. Top-Selling Water Wave Lace Wigs In [Yolissa Hair](#)

The most numerous sell is water wave 13x6 lace front wigs in Yolissa Hair. And the second-best are water wave 13x4 lace front wigs. Customers can find the [water wave wigs](#) within seconds of reaching the home page of Yolissa Hair.

2. Why Water Wave 13x6 Lace Frontal Wigs Are Popular?

Some people may be curious about why water wave 13x6 lace front wigs are so popular. These lace wigs are so popular because of many reasons. Below are some main advantages of water wave 13x6 lace front wigs, please kindly check.

- Attractive Hair Texture

By examining the name of water wave wigs, and observing the appearances of water wave hair. People can find that these hair curls are called water waves for a reason, as the shape of the curls is just like its name. The hair wave moves up and down like the water ripples. These waves and curls of hair can give people sensuality and youth. Water wave wigs look beautiful and fit all ages too. Besides, most people want to have volume hair, getting a water wave wig can help add a little volume and let the girls appear more gentle. Maybe that's why water wave 13x6 lace front wigs are so popular.

- Enough Parting Space

Water wave [13x6 lace front wigs](#) as one kind of lace wigs. Enough parting space of a 13x6 lace front wig is always the selling point. Lace front wigs have wider 13 inches width than lace closure that can cover human foreheads from ear to ear. And 13x6 lace front wigs have a deeper 6 inches depth of parting space than 13x4 lace front wigs. The bigger the lace area of a lace wig has, the lighter and more comfortable a lace wig can be.

- Two Different Lace Types For Your Choice

Lace area finished, followed by lace types. Normally two different types of lace can be chosen: Swiss lace and HD lace. There are two lace colors of Swiss lace: transparent lace and medium brown lace. When people are ordering a Swiss lace wig, they need to choose a suitable Swiss lace color to match their skin colors. Transparent lace color suits light-skinned people better, and medium brown lace color suits dark-skinned people better.

So most people prefer [HD lace wigs](#). HD lace is an upgraded version of Swiss lace. The thinner, lighter, and high definition lace can make the hairline more invisible, and match all skin colors without using lace tinting.

- Wide Range Of Hair Lengths

Hair length is another factor to consider when people are shopping for a human hair wig. Some people prefer short [bob wigs](#). Some people prefer long hair wigs. Yolissa Hair has a wide range of hair lengths for water wave wigs. The longest hair length of a water wave hair wig can reach 36 inches.

3. Other Hot-Selling Water Wave Lace Wigs

About the water wave wigs, Yolissa Hair not only has these 13x6 lace front wigs. We also have other hot-selling water wave wigs. Including water wave 13x4 lace front wigs, water wave 5x5 lace closure wigs, water wave 6x6 lace closure wigs.

- Water Wave [13x4 Lace Frontal Wigs](#)

Water wave 13x4 lace front wigs are similar to 13x6 lace front wigs. The main difference between

these two water wave lace front wigs is the depth of lace. 13x6 lace front wigs have 6 inches deeper parting space than 13x4 lace front wigs.

- Water Wave [5x5 Lace Closure Wigs](#)/Water Wave [6x6 Lace Closure Wigs](#)

These two water wave lace closure wigs are also similar. The main difference between these two water wave lace closure wigs is the lace area. Lace closure wigs have less lace area than lace front wigs. So the prices will be more affordable and competitive than lace front wigs. Besides, the installations of lace closure wigs are also more convenient, no need to use glue.
