XY GALA is a Hip-Hop artist from Rome, Italy, currently residing in London, United Kingdom.

His unique delivery and sparkling punch lines give his music a moody vibe.

During his teens, **XY GALA** developed a huge passion for music. He was profoundly inspired by Hip-Hop, Trap, and Rock.

He began his music career performing and recording for numerous bands both in Rome and London.

After awarding a degree in Contemporary Music Performance he decided, in 2021, which was the moment to establish his path as a solo artist.

Having performed in major festivals in the city of Rome, such as the Hardcore Roman Festival “Romans Do IT Better” while sharing the stage with artists of the caliber of Vanilla Sky.

Thanks to his past experiences as a band member, he developed good leadership and stage presence.

The first single “**Fighter**” will be released on April 17th on every major platform.

The fighter is the introduction of **XY GALA** in the Hip-hop, Trap scene. The song is a dissing against those people that care more about their appearance than their persona.

Fighter although is a Hip-hop track, delivers a unique feeling of heaviness blended with a melodic, almost melancholic sound, due to the use of the harmonic minor scale.

Those features make “**Fighter**” an interesting blend of different musical influences.
