

All About Money: The Label Helps Aspiring Artists to expand Their Horizon in The Music Industry

California, Los Angeles, May 20, 2021 ([IssueWire.com](https://www.issuewire.com)) - All Bout Makin Money or ABMM is an official music label from Huntington, Long Island. The label began in 2013 when Leek2Commas met his close friend Flex. The 2 became very good friends and business partners. They turned their brotherhood into a thriving business concept, ABMM. In 2015 they were lucky to meet the other members of their empire. Bondsabillion, Trizzytolitty, Wop, Benny Bentayga, and Meechie Porter. Thus starting an official company in 2021. This label's main focus is to develop and push its artists to expand in all areas of the industry. Not only in music. The label as a whole plan to open up its own recording studio and make it

available to the public. Currently, Trizzy and Bondsabillion have their music out on all major platforms. Although they have their content together right now, the plan is to situate all artists under their umbrella for success.

Each member of this label is focused on success and becoming better for the group. Right now the main focus is to solidify a solid fan base for all of their artists, release new projects for all of their artists and officially build their home base studio. ABMM is driven to hold some of the best hardworking creatives who set their eyes on more than music. Money is the motive and making more of it to help bring their dreams to life is key.
