

AWE Learning Launches a New Version of Its Award-Winning Products

Early Literacy Station™ Platinum, Bilingual Spanish Literacy Station Platinum and AfterSchool Edge™ Platinum

Pennsylvania, Chester, May 26, 2021 (Issuewire.com) - AWE learning announced today the release of Version 2 of the Early Literacy Station™ Platinum, available in both English and Bilingual Spanish, for ages 2-8, and AfterSchool Edge™ Platinum, for ages 6-12. Available as an All-In-One and Tablet device, these workstations provide public libraries a safe and interactive learning environment for their youngest patrons. Each product is a plug-and-play device that requires no internet connection to access the plethora of content.

This newest upgrade includes brand new and exciting interfaces, avatars, and icons; new and engaging educational titles; new ELF™ Child-Safe Browser; and new and improved Administrative Panel. The Administrative Panel features include but are not limited to, auto shutdown times, volume control settings, Personalized Education Plans, and networking options.

With technology and curriculum always changing in the classroom, AWE Learning has sourced new content to provide young patrons with premier educational titles designed to help prepare young learners with school readiness skills and help them excel in the classroom.

"We are so excited to introduce an upgraded version of the Early Literacy Station™ Platinum and AfterSchool Edge™ Platinum. Our partnerships with new educational publishers allow us to offer more award-winning titles," said Deborah B. Sorgi, Ed.D., President & CEO of AWE Learning. "The last year has been a unique one, and we are excited to provide resources for children to grow academically

outside of the classroom and help with learning recovery. We have no doubt that our users will continue to love the existing content offered, as well as the new titles featuring geography, cyber safety, Sesame Street, typing, writing strategies, and more!"

The Early Literacy Station™ Platinum and AfterSchool Edge™ Platinum are pre-loaded with more than 85 educational software titles spanning all STREAM (Science, Technology, Reading, Engineering, Art and Music, and Math) subject areas. With access to a new online Customer Portal, libraries can easily view utilization statistics to demonstrate return on investment. AWE Learning understands that space parameters can limit what is offered to young patrons in the community. Our Add-On Bundle options allow libraries to purchase a base product and add on additional software packages to offer more content to early learners! The workstations provide STREAM content that is guaranteed to extend learning beyond the school day and provide hours of fun! Complement these workstations with an annual subscription to [AWE Learning Platinum Online](#), a cloud-based subscription program that offers a completely different content suite featuring 175+ titles.
