

Call for a ceasefire between Israel and Palestine UNDC Diplomatic Org. H.E. Maurizio Cusimano

The International Diplomatic Organization UNDC, based in London and which gathers associates and delegates from all over the nations, has expressed clearly its position on the critical situation that has arisen between Israel and Palestine

United Kingdom, London, May 17, 2021 ([Issuewire.com](https://www.Issuewire.com)) - The International Diplomatic Organization UNDC, an organization based in London and which gathers associates and delegates from all over the nations, has expressed clearly, through an appeal to the UN its position on the critical situation that has arisen between Israel and Palestine.

We are well aware of the ancient roots that led these two peoples to conflicts that have often resulted in war violence - said **H.E. Cusimano** - to the detriment of innocent and unarmed civilians.

We know well that in order to mediate the profound cultural, historical, and religious differences, a political negotiation supported by the international community is needed because there would be serious difficulties in reaching a purely legal decision, even if the question were referred to the United Nations International Court of Justice.

As an NGO Organization, in view of the general assembly of the UN Security Council on Sunday 16 May 2021 – said again delegate **H.E. Prof. Maurizio Cusimano**, an expert in Crimes and International Justice, we appealed to express our position in favor of an **immediate bilateral ceasefire** in Israel and the Palestinian territories to "avoid a wider conflict" believing that "The indiscriminate launch of rockets from part of Hamas and other groups against Israeli civilians is unacceptable. While recognizing Israel's legitimate need to protect its civilian population, the response must be proportionate and subject to the utmost restraint in the use of war force "considering the human rights guaranteed by the Conventions and Resolutions during hostilities between nations gravely violated above all, we believe that the rights of journalists and the media of whatever parts they are must be guaranteed, and we will never compromise on this. As an Organization inspired by the promotion of peace and dialogue, we will always be ready to seek any diplomatic and mediation avenue for the peaceful resolution of any dispute.
