

Center for Cyber Safety and Education Expands Its Partnership with AWE Learning on Launch of Product Upgrade

CENTER FOR CYBER SAFETY AND EDUCATION™

Pennsylvania, Chester, May 27, 2021 ([Issuewire.com](https://www.issuewire.com)) - AWE Acquisition, Inc., dba AWE Learning, is excited to expand its partnership with the Center for Cyber Safety and Education (Center). Headquartered in Chester, PA, AWE Learning is the leading provider of digital learning solutions for public libraries throughout the United States and Canada.

AWE Learning recently launched Version 2 of the Early Literacy Station™ Platinum, Bilingual Spanish Literacy Station Platinum, and AfterSchool Edge™ Platinum. Each workstation includes more than 85 educational software titles, spanning all STREAM subject areas (Science, Technology, Reading, Engineering, Art & Music, and Math) for early learners, plus new interfaces, administrative features, and Customer Portal. We are excited to add the Center's newest title, "Downloading Danger" eComic Book. The addition of this title will help young learners build their cyber safety skills with the well-known Garfield and his friends.

Through AWE Learning's continued partnership with the Center, their educational software titles will reach a larger audience and will positively impact early learners. The Center's educational activities help young learners to build school-readiness skills, leading them to be successful in the classroom and in their future. "Children today get their information in so many different ways; partnering with AWE Learning and their unique products has been a great way for us to deliver our life-changing online safety programs to vulnerable youth around the world," said Patrick Craven, Director of the Center for Cyber Safety and Education.

AWE Learning President & CEO, Dr. Deborah B. Sorgi, said, "We are delighted to expand our partnership with the Center for Cyber Safety and Education on the newest release of our award-winning

workstations. Companies like the Center offer a variety of premier educational content for our target age group and markets, and we are excited to include more of their content on our offerings. In today's global and connected world, our technology gives children access to digital learning resources. Additionally, by addressing the foundational literacy skills of early learners, we are lowering the need for intervention programs. And we are giving every child access to unlimited opportunities to grow and connect. We have no doubt that young patrons everywhere will greatly enjoy interacting on these exciting new titles."

###

About AWE Learning (<http://www.awelearning.com>)

AWE Learning provides comprehensive digital learning and early literacy solutions for young children in public libraries across the United States. Our mission is to inspire an enthusiasm for learning by supporting school readiness and literacy in the community. Through our dedication to high-quality, STREAM-aligned content that is easy to use, we collaborate with libraries to highlight their role as community leaders in the pursuit of learning.

About Center for Cyber Safety and Education (<https://iamcybersafe.org>)

The Center for Cyber Safety and Education (Center) is a nonprofit charitable trust committed to making the world a safer place for everyone. The Center works to empower individuals, families, and communities to secure and protect their digital lives through cyber safety education, scholarships, and awareness programs. Visit www.IAmCyberSafe.org to learn more.
