

Consus & EDC Philippines partner to deploy Happay T&E solution.

Philippines, Metropolitan Manila Area, Jun 1, 2021 ([Issuewire.com](https://www.issuewire.com)) - Consus Global, a leading procurement and supply chain services provider, announced today that they successfully implemented Happay's Travel & Expense management solution to Energy Development Corporation (EDC). The Philippines' largest renewable energy producer, EDC, has partnered with Consus in the successful deployment, implementation, and transformation of the company's end to end spend management automation, which focuses on faster reimbursement cycles, reduction in processing costs, going paperless, and ensuring transparent spend management while increasing the employees' productivity.

"Consus - Happay is one of our digitalization initiatives that is now helping our employees better manage their company expenses without taking up too much of their time, which is critical to our current work-from-home setup in EDC," said [Erwin O. Avante, EDC's Chief Finance Officer](#).

"We have witnessed one of the best-in-class Travel and Expense Management implementations in the South East Asian region in EDC Philippines, which is known in the region for its process-oriented approach and digitization adaption across various functional levels to accelerate its business. Our technology partner Happay has a future-ready and sleek spend management platform and we are excited to have our first trendsetting Happay customer in the Philippines. EDC had been searching for a

trusted technology partner that can fulfill key business requirements of having a consistent user experience across all employee devices such as laptops, desktops, and smartphones. The pandemic has shown us how critical it is to have this mobility for employees in times of work from home and limited access to physical office spaces. Our customers across all regions are aspiring to reduce spend processing costs and striving to go paperless. Happay and Consus can help them achieve this quickly and effectively” said [Madhuri Govilkar, Director & Managing Partner, Southeast Asia](#), [Consus Global](#).

[Ramesh Iyer, President and Chief Revenue Officer, Happay](#), said, “In today's socially distanced world, building a remote digital workplace is a boardroom level discussion. Since employee health, productivity and employee experience is a serious concern for companies, the need to have a Contactless and Paperless Spend management solution is even more imperative.”

[About EDC Philippines](#)

The Energy Development Corporation (EDC) is a pioneer in generating 100% clean, renewable, and reliable energy as an electricity supplier in the Philippines for over 40 years. The company is one of the biggest producers of geothermal energy in the world with power plants situated across the country, allowing it to offer distribution utilities and contestable customers affordable energy rates and a stable and low carbon source of electricity. The latter is done as a licensed Retail Electricity Supplier and soon, through the government's Green Energy Option Program that enables 100kW electricity consumers to directly get power from renewable energy providers like EDC. The company's almost 1,500MW installed capacity accounts for 20% of the country's total installed RE capacity. With geothermal as the company's primary source of power, EDC's 1,200 MW provides 62% of the country's total installed geothermal capacity. EDC's clean energy portfolio also comprises 150 MW of wind, 132.8 MW of hydroelectric, and 11.97 MW of solar energy. Its total power generation of over 9,111.GWh in 2020 is equivalent to over 42% of the country's 21,609GWh* total generated renewable energy.
