

Dey's Pharmacy's Home Delivery Of Medicines Creates A Significant Impact During COVID in Guwahati?

DEYS

delivering wellness

Assam, Guwahati, May 19, 2021 ([Issuewire.com](https://www.issuewire.com)) - Medicines are vital for the well-being of any individual. Initially, people used to travel to the drug store to buy the required medicines. But with the Coronavirus outbreak, they avoid doing so.

But the availability of medicine at the right time is essential, and it's important to have instant solutions

rather than going to the pharma stores every time.

Dey's pharmacy has made way for Guwahatians to receive medicines at their doorsteps. In the wake of COVID-19, everyone is afraid to move outside of their homes to purchase even the essential commodities.

With the decline in the market, most traditional businesses have moved to digital platforms to offer their products. It has increased the demand for the online market.

Deys Pharmacy's online medicine delivery solution is a great way to get your problems solved. Besides, it provides patients with their prescription medicines and free home delivery.

We at Deyspharmacy take extra care and preventive measures to restraint the COVID-19 transmission, which include:

- 1.Regular Testing: Our employees undergo temperature testing and screenings daily.
 - 2.Safety gear: From packers to delivery boys, all the staff members wear protective clothing, including masks, gloves, etc., when they travel outside for medicine deliveries.
 3. Sanitizing: In addition to other precautions, employees use sanitizers regularly.
 4. Follow Social distancing: According to the latest government guidelines, it's advised that all the individuals maintain at least two meters of distance to prevent coronavirus infection from spreading.
- Also, they must avoid any contact with the delivery workers. They can do this by collecting the medicines after the delivery person leaves their premises.
5. Sanitizing the Parcels: It's essential to cleanse the parcel with a sanitizer or any other cleaning liquid.
 - 6.Digital transaction: It's recommended to use online payment methods such as net banking, UPI to avoid human contact

7.Convenience

Ordering medications online is a trouble-free and safer option in the current situation. Primarily, it is suitable for those older people who are more vulnerable to infection and cannot go outside to buy medicines.

9.Time-saving

Online ordering of medicines saves your time of traveling to the medical store and waiting in a long queue for your turn. You just have to choose your required medicines by upload a copy of your prescription, and it will be at your doorstep within a few hours or a couple of days.

The travel and waiting time that you saved can be utilized by spending it with your loved ones.

10.Expertise

Our employees are fully qualified professionals who understand the priorities of their customers. When you buy from Deyspharmacy which is a certified and entirely legitimate pharmacy, there's no reason that you won't receive superior medical services.

They will also help you download and print useful information and receipts related to the medicines you have bought from them. In case there is a shortage of any medicine, and they will inform you in advance and let you know its availability in the future.

We at Deys Pharmacy are following firm rules and regulations to prevent our staff from getting infected. It has been a tough time for all of us, and the situation will be the same for the next few months.

So, being responsible citizens, we need to follow the government's guidelines and protect ourselves. The home delivery of medicines will be beneficial for all of the customers and also make them accustomed to a new age buying and will keep them safe from this deadly pandemic.
