Extraordinary Result oriented Digital marketing services

Many of our **clients had got extraordinary results, resultant they had amazing business with it**

There are many fraudulent activities on an eCommerce website. Some Customers make Fake payment, put the fake address, Cancel or return Multiple order

For an e-commerce website, we have fraud prevention, fraud detection with artificial intelligence, and machine learning

With our system, a similar pattern of the customer is recognized with artificial intelligence and machine learning, a red flag is there on the dashboard whenever there is Fraudulent activity and a green flag for normal orders.

While many people prefer cash on delivery (COD) as their preferred mode for paying. Most of the COD orders are canceled. We Convert your cash on the delivery customer into Prepay customer by giving them some discount if they pay online instantly

Daily Billions of people are online and the number is growing massively. This is the best time to create an online presence with Swaroop web Solutions
