

Excelledia Ventures announced as Digital Innovation partner for the International Organizational Resilience Awards

Free Proof of Concept (POC) for every Entry (digital innovation)
Claim it after the event.

Kerala, Kochi, May 28, 2021 ([IssueWire.com](https://www.issuewire.com)) - Excelledia Ventures, a leading brand anchored in digital innovation announces that they are the International Digital Innovation Partner for the International Organizational Resilience Awards powered by ARCET Global.

The award aims to reward & recognise those driving excellence in digital innovation. Entries to the

awards will be shortlisted by an independent expert panel and finalists will be announced on 7 July 2021. Winners will be revealed at a virtual ceremony on 17 November 2021.

Muhammed Farooque, Founder & CEO of Excelledia, a business performance management consulting company that leverages the right combination of People, Process, and Technology, says:

I want to take this moment to acknowledge the tremendous work that has been done over the past years and thank everyone involved. The past few years of disruption have taught us about our resilience. What I believe is the longevity of companies depends on their ability to quickly adapt with excellence and go beyond to deliver new. We have an opportunity to serve our customers in their digital transformation journey and we are identifying and implementing innovative ways to do this.

Omar Rashid, Chief Executive Officer at Blackstone Resilience said:

“Organizations that have managed to become even more successful, especially during the recent turbulent times deserve recognition. The awards act as a beacon for companies who have used their capabilities to foresee, plan for, act on and adjust to incremental change and sudden disruptions to endure and thrive while keeping their employees and customers safe. We also wanted to have an event so that organizations will benefit by being able to learn from one another, on how resilience was critical to their business and further the ability for others to implement their own successful projects.”
