

George Dfouni Goes “Uncensored” This Time Around

New York, New York City, May 10, 2021 ([Issuewire.com](https://www.issuewire.com)) - Hotelier and artist George Dfouni announced today that he is putting his final touches on a soon-to-be-published non-fiction book titled UNCENSORED.

What's UNCENSORED about? Well, this will remain a mystery for now. Dfouni did not want to elaborate much stating "In this book, I write about mind-blowing experiences on various factual topics. I shed light on certain issues that could change someone's life."

It's worthwhile noting that the author George Dfouni had previously published a memoir titled HARD LESSONS. <https://www.amazon.com/Hard-Lessons-George-Dfouni/dp/1731278349/ref=nodl> A book that had received rave reviews, detailing his experiences through the "American Dream" as well as the "American nightmare," George Dfouni took the reader through trials and tribulations, heartbreak, grief, success, and excitement.

The success of his memoir encouraged Dfouni to put ink on paper again. He is straightforward, blunt, and holds nothing back. "Life is an intriguing paradox; you are the spectator during the most fragile, vulnerable periods of your life and the player when you are the ablest," Dfouni said.

Besides his new book, George Dfouni announced that he will also be releasing a new song in the

coming weeks. He expects it to reach the top of the charts. “The song will get you off your feet. It’s filled with happy and positive vibes, something that is badly needed today.”

When asked how does he manage his multiple projects so efficiently, Dfouni simply said, “This is the art of balancing profession and passion”
