

GOODPAPA - The 2nd Gen Smart Toilet Brush(MT2) Announces Launch

With Mother's Day 2021 fast approaching, GOODPAPA launches the 2nd Gen Smart Toilet Brush (MT2) in the Global Market, it's time to think about what will delight your mom (or wife) and show her just how much she's appreciated.

China, Beijing, May 3, 2021 ([Issuewire.com](https://www.issuewire.com)) - Today, the team at GOODPAPA announced the launch of the 2nd Gen Smart Toilet brush(MT2). This electric rotation, UVC sterilization toilet brush provides fast, self-sterilization cleaning and features a one-button control design. This one-of-a-kind toilet brush is available now on Amazon: <https://mt2.goodpapa.net/3e2fErZ>

For some people, Maybe GOODPAPA smart toilet brush is a new product, but for over 1000 backers and more than 40000 global users, they have already felt the magic of this product ahead of time in July 2020. So a lot of work went into its electric rotation, UVC sterilization function, and other innovation, which given a different cleaning experience in toilet cleaning.

"Cleaning the toilet is one of the consumers' least favorite household chores," said Yang, President-General Manager. "GOODPAPA MT2 is a real gamechanger in bathroom care. It makes cleaning the

toilet easier and more effective, especially in the era of Covid-19, we're sanitizing every single thing in our houses while quarantining."

The iteration of MT2 based on user feedback of MT1. GOODPAPA was launched on the eve of mother's day, expecting that people who are busy with household chores will save time for themselves and spend more time with their families.

Click, Swish, and Self-clean

No one likes using or storing a dirty toilet brush, which research indicates can harbor millions of germs. And between cleanings, those germs can thrive in and around brush caddies, multiplying by the millions. GOODPAPA MT2 finally lets consumers get rid of their dirty brush and caddy.

- *Electric cleaning-Improved motor goes at a speed of 300RPM, can clean away any stain quickly*
- *Using UV-C sterilization at a wavelength of 270-285nm, and reaches 99.9% bacteria & germs will be killed within 2min. Finally, when you're done, just set it in its base to self-clean.*
- *Redesigned TPR brush head and an extra replacement bristle brush head to provide deeper and durable cleaning.*
- *Goodpapa MT2 is a sturdy, ergonomic wand that allows you to reach the surfaces you want to clean with much less effort and without having to bend and experience back strain as much as you normally would.*
- *There's even a built-in reservoir underneath the brush that catches any excess moisture, allowing it to dry more efficiently and preventing that humid germ-breeding ground.*

- *Enhanced battery life that can nonstop battery life of 1.5 hours, it can stay charged and work for one month until the next charging cycle is required.*
- *The charging part adopts a top-level craft plus segmented design, It is not awkward, even if the charging handle is brought to the living room for charging.*
- *It charges via USB-C to easily integrate with your other gadgets, giving you a better charging experience.*
