New York, New York City, May 24, 2021 ([Issuewire.com](https://www.issuewire.com)) - According to the latest report by IMARC Group, titled, “**Governance, Risk and Compliance Platform Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026**”, provide the [global governance, risk and compliance platform market](#) to exhibit strong growth during 2021-2026.

Historical: 2015-2020

Base Year: 2020

Forecast Year: 2021-2026

Industry Definition and Application:

Governance, risk, and compliance (GRC) refer to a coordinated strategy that is used by an organization for managing issues associated with corporate governance, enterprise risk management (ERM), and complete compliance to regulatory requirements. It assists in improving the decision-making process, increasing optimal investments, and reducing fragmentation among different divisions or departments. It also helps users in enforcing regulations, identifying operational inefficiencies, minimizing complexity for managers, eliminating costs of multiple installations, and automating most of the paperwork.

Note: We are regularly tracking the direct effect of **COVID-19** on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Market Trends and Drivers:

A GRC platform aids users in centralizing the complete program, identifying problems before they occur, and integrating risk management in all processes. Strong growth has been experienced in the market on account of a substantial increase in the number of emerging organizations. Apart from this, the demand for GRC platforms is rising as these platforms help organizations in enhancing operational activities and achieving their targets by automating the workflow. Further, various firms are using these platforms as a standard approach for solving conformity and risk issues rather than solving them individually.
