

Hospitality sector begins recovery as pubs and bars reopen their outdoor spaces

Is your outdoor area in need of freshening up? Mayan Supplies has a wide range of outdoor furniture suitable for all settings.

Northamptonshire, Daventry, May 23, 2021 ([Issuewire.com](https://www.issuewire.com)) - Helping the hospitality sector prepare for the summer

With summer on the horizon, Mayan Supplies has unveiled its stunning range of outdoor furniture. From Insta-worthy wine tables to durable, low maintenance, weather-resistant chairs, and tables, these must-haves are perfect to transform your garden areas into the community hubs your guests and regulars have been waiting for for many months.

Mayan Supplies has long been a one-stop-shop for bar, restaurant, and hotel supplies but with such unpredictable weather, the sourcing team has been working hard to deliver a range that can cope with all types of conditions while still providing style and comfort to keep the punters happy.

With many big retailers struggling to meet the demands for garden furniture in the UK, people are turning to local, independent makers to help set the scene and transform gardens into the perfect hosting ground to wine and dine those long overdue visitors. From the classic Rattan range to the more stylish [Hampton](#) sets, Mayan Supplies have an incredibly wide range of [outdoor garden furniture](#) to give your garden area that extra special look.

What about Inside venues?

As with outdoor settings, tables and seating indoors must also be configured to comply with social distancing guidelines.

Until June 21st, hospitality venues can serve groups of up to 6 people or two households of any size. A desire to return to dining and drinking indoors, boosted by the chilly weather seen over much of the past month, has even pushed hospitality spending above pre-pandemic levels. It is then important to select styles and types that help vendors make the best use of their spaces. Simple changes to tabletops and bases can help give a whole new look while also allowing for more guests to be accommodated safely and comfortably.

So whether your venue is looking to improve dining facilities indoor or outdoor, take a look at the Mayan Supplies website for some ideas or contact the team for more information or bespoke requests.
