We asked Graine why did you choose to record On The Cool at another Studio?

"I love Studio 713 they have the best engineers and producers on the planet. My song Ride Out was engineered there I got the beat from Rammy On The Beat there, and legendary Ryan Mellow works wonders. I really wanted to record On The Cool there but studio 713 stays booked. So I had to find an alternative I plan to make a remix for On the Cool and this time I'm going to make sure I record it at studio 713."-Graine

When do you plan to release the full album?

„I plan to release my full album in August until then I'm going drop a new single every month and they will all be bangers. I'm just waiting on a sample clearance for a new song I'm working on this song is going to really shock the nation. Just know I got something for everybody on this new album. The old school heads the new school I plan to leave a mark with this one."-Graine
