

Ignacio Schiefelbein Partners with AWE Learning on Launch of Product Upgrade

Number Diner

Pennsylvania, Chester, May 28, 2021 (Issuewire.com) - AWE Acquisition, Inc., dba AWE Learning, is excited to announce its new partnership with Ignacio Schiefelbein. Headquartered in Chester, Pennsylvania, AWE Learning is the leading provider of digital learning solutions for public libraries throughout the United States and Canada.

AWE Learning recently launched Version 2 of the Early Literacy Station™ Platinum, Bilingual Spanish Literacy Station Platinum, and AfterSchool Edge™ Platinum. Each workstation includes more than 85 educational software titles spanning all STREAM subject areas (Science, Technology, Reading, Engineering, Art and Music, and Math) for early learners, plus new interfaces, administrative features, and Customer Portal. We are excited to have Number Run and Number Diner on AWE Learning's newest release of the AfterSchool Edge Platinum workstation. These titles will give users a chance to practice and improve their math skills.

Through AWE Learning's partnership with Ignacio Schiefelbein, his educational software titles will reach a larger audience and will positively impact early learners. Ignacio Scheifelbein's educational activities help young learners to build school readiness, lead them to be successful in the classroom, and in their future. "I love the process of developing learning games. Choosing the right setting for a particular

concept can lead to great learning experiences, and getting feedback from parents and teachers, both during and after initial development, helps make these projects way beyond that initial concept," said Ignacio Schiefelbein.

AWE Learning President & CEO, Dr. Deborah B. Sorgi, said, "We are delighted to initiate this new partnership with Ignacio Schiefelbein on the newest release of our award-winning workstations. Companies like Ignacio Schiefelbein offer a variety of premier educational content for our target age group and markets, and we are excited to include their content on our offerings. We certainly see the benefit it will add for our users. In today's global and connected world, our technology gives children access to digital learning resources. Additionally, by addressing the foundational literacy skills of early learners, we're lowering the need for intervention programs. And we're giving every child access to unlimited opportunities to grow and connect. We have no doubt that young patrons everywhere will greatly enjoy interacting on these exciting new titles."

###

About AWE Learning (<http://www.awelearning.com>)

AWE Learning provides comprehensive digital learning and early literacy solutions for young children in public libraries across the United States. Our mission is to inspire an enthusiasm for learning by supporting school readiness and literacy in the community. Through our dedication to high-quality, STREAM-aligned content that is easy to use, we collaborate with libraries to highlight their role as community leaders in the pursuit of learning.

About Ignacio Schiefelbein

Since completing his Master's in Learning, Design & Technology, Ignacio has been developing learning games that achieve high levels of engagement through thorough user testing and design. Number Run, his first project, was chosen as the best app for math facts according to Parents Magazine, and Number Diner, his latest release, is a hit with his two children.
