

Image-Compress.com: An Ultimate Tool to Compress Images without Losing Quality!

Image-Compress.com is an online image compressor that contracts an image into the smallest size and that too without making it lose its format and original quality. Whether your pictures are in a JPEG or PNG format, this online tool has you covered.

Connecticut, New Town, May 28, 2021 (IssueWire.com) - Image compression is a great way to reduce the size of a picture and save a lot of space while storing it in an offline or online system. When you upload an original size image without making any size edits, it may put a load on the website and reduce its speed to a very great extent. Do you want that? Or would you like to use a simple and easy-to-use [online image compressor](#) tool? Of course, the latter!

Image-Compress.com is an online image compressor that contracts an image into the smallest size and that too without making it lose its format and original quality. Whether your pictures are in a JPEG or PNG format, this online tool has you covered.

The tool works in a simple manner and uses the latest algorithm to encode your image based on its colors, textures, and patterns. It reduces the size of a file by over 60% without making you worry about its pixels or quality.

One of the best things about using this ultimate online image compressor tool is that it doesn't take a lot of time and you can compress images instantly. Plus, you can upload a maximum of 20 images at once and up to 10 times per day.

So, if your images are being troubled in your website or affecting the SEO or you're just looking for a tool to compress images hassle-free, try Image-Compress today!
