

Ipswich Damp Proofing Expands And Hires New Staff!

England, Ipswich, May 6, 2021 ([Issuewire.com](https://www.issuewire.com)) - Ipswich Damp Proofing, a company that specializes in supplying damp proofing solutions has expanded its operations. They have hired 7 more people to work for the company, as well as invested heavily in new equipment to keep up with increasing demand. The expansion was necessary because of increased demand for their services which is why there is still a waiting list to get on the company's schedule. The company's Managing Director explained that many homeowners are now turning to them for help when faced with rising damp issues. This is reflected in the number of employees they have employed over the last year which has increased by 50%. With so much success, they plan on expanding into other areas of business such as kitchen refurbishment and roof repairs.

Ipswich Damp Proofing is a family-run business that has been running for over ten years.

The company has employed extra staff to deal with these questions -

- What is [damp proofing](#) and why should I care about it if my house isn't already damp-proofed
- How to tell if your home needs a new layer of protection against water damage
- The benefits of installing a new damp-proof membrane on your property
- Why you shouldn't wait until the problem becomes worse before taking action
- Cost-effective ways to keep your property dry for years to come
- Tips for preventing future issues with moisture in the building envelope

A recent rise in work means they have had to expand by hiring seven new employees and buying new equipment to tackle damp problems, including specialist fabrication tools and vehicles.

This expansion will allow the company to deal with an increase in demand from customers who are looking for help with rising damp, black mould, or penetrating damp issues across their properties.

They also hope this will enable them to take on more contracts as well as providing faster service times which currently average at 12 days per job versus 14 previously! - If you need any type of advice or assistance please do not hesitate to contact them using one of these methods.

About Company: It's no secret that dampness can be detrimental to property values and living conditions but thanks to [Ipswich Damp proofing](#), you don't have to worry about this costly problem! Ipswich Damp Proofing has been going for a decade now, providing solutions and repairs to rising damp, black mould, and penetrating damp. The company has seen a rise in work recently and as a result, has now expanded by hiring 7 new employees and by buying new equipment to tackle damp problems!
