

Jin Chen, DC, a Chiropractor with Pain Care Chiropractic

Get to know Chiropractor Dr. Jin Chen, who serves patients in New York, New York.

New York, New York City, May 14, 2021 ([Issuewire.com](https://www.issuewire.com)) - Committed to bringing better health and a better way of life, Dr. Chen sees patients at his private practice, Pain Care Chiropractic, located in New York, New York. He specializes in treating bones, muscles, joints, and tendons that are affected by injury by incorporating a variety of techniques and disciplines, including physiotherapy, acupuncture, Kinesio tape, flexion and distraction, and soft tissue techniques.

Born in China and raised in the US, Dr. Chen's interest in chiropractic began when he realized his curiosity in health care. After graduating with a Bachelor of Science degree in Chemistry from the Indiana University of Pennsylvania, he moved to Chicago, Illinois where he completed his studies at the National University of Health Science and then worked as an associate at the University Chiropractic clinic.

During his time spent in chiropractic school, he understood that to be an effective doctor, he had to spend time learning outside of his schooling. With this in mind, Dr. Chen has additionally spent many hours at seminars to increase his knowledge of adjusting babies, children, pregnant mothers, and the geriatric population. He has helped patients who have had chronic pain for years feel pain-free for the first time in their lives. After providing spinal correction, he has seen improvements for many conditions including allergies, plantar fasciitis, back, and neck pain, sprained ankles, shoulder complaints, and many more.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain, back pain, headaches, vertigo, and a long list of other ailments and conditions. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself naturally, without the use of medication or surgery.

On a more personal note, Dr. Chen speaks both English and Mandarin.
