What is Leawo Video Converter?

Leawo Video Converter is a formidable converter to help people convert video and audio files between more than 180 formats from one to another. People can use Leawo Video Converter to convert video/audio to common video, common audio, HD video, 4K video, Lossless video, and 3D movies. Besides various video and audio formats output, many portable devices are allowed to be directly set as output profiles with Leawo Video Converter. Not only the popular iOS devices, but also Android devices,

and Microsoft Windows devices are supported by this professional video file converter. With this video converter in hand, users can save a great deal of time for choosing a proper video format by directly setting devices as output profiles. Of course, people can edit the video before converting. Leawo Video Converter has a built-in editor to allow people to crop, trim, merge video. And Users can freely add external SRT, ASS, SSA subtitles and select audio tracks for keeping in the output before the conversion process takes place with the help of Leawo Video Converter. Besides, customized photo slideshow videos are created by customers in the way they like. It is so powerful that it can act as an M3U8 converter to [convert M3U8 video](#) and the best [alternatives to Freemake Video Converter](#) .

Other Features of Leawo Video Converter

In addition, Leawo Video Converter enables users to edit video for output. People could trim video length, add watermark, crop video, get special video effect, 2D to 3D conversion and remove the background noise, among which 2D to 3D conversion is the most popular one. There are in total 6 different 3D movie effects available for people to choose from: Red/Cyan, Red/Green, Red/Blue, Blue/Yellow, Interleaved, and Side by Side. With the help of various 2D to 3D converter programs, people would have a stunning 3D experience without even stepping out of the door.

Meanwhile, Leawo Video Converter also can play the role of a photo slideshow maker that could easily generate photos into a photo slideshow and then convert generated photo slideshow to a video of 180+ formats for multiple uses.
