"We're particularly excited to continue to forge relationships with Veterans and the disabled around the country in the 32 markets and 22 states we currently service. This year we're focused on sanitizing mobility equipment including wheelchairs, power chairs, and mobility scooters with our STEAM 220 PROGRAM to reduce the risk of infections," said Vincent Baratta, COO for Mobility City. "We are always focused on tune-up days at nursing homes and facilities where we tighten and replace brakes and worn out parts like armrests and upholstery on wheelchairs, mobility scooters, and hospital beds. Since COVID, state, local and federal inspectors require wheelchair sanitizing in the facilities they inspect. The STEAM 220 PROGRAM is useful, economical, and is requested by more and more nursing homes and VA facilities in our core markets in the USA," he said.

"The STEAM 220 PROGRAM, developed by Mobility City uses dry steam vapor exposure to eliminate pathogens, is based upon scientific data published in peer-reviewed journals," said Diane Baratta, President, Mobility City Holdings Inc. "Mobility City is giving back to Veterans by providing the free services right at their 32 locations on Friday, May 28th, 2021," she said.

"National organizations focused on helping Veterans and Warriors who became disable are helping to funnel Veterans to our free Memorial Day weekend service including: the National Association of America Veterans, Viet Nam Veterans of America, and the Gary Sinise Foundation," said Diane Baratta.
