

Muneet Nanda, DMD, a Dentist with Bright Smiles LLC

Get to know Dentist Dr. Muneet Nanda, who serves patients in Hartford, Connecticut.

New York, New York City, May 28, 2021 ([Issuewire.com](https://www.issuewire.com)) - Dr. Nanda is a skilled dentist in Hartford, Connecticut providing comprehensive dentistry services for patients in the surrounding areas. As the Owner & Operator of Bright Smiles LLC, she provides preventative examinations, advanced diagnostics, and treatments regarding oral and dental health.

With a one-on-one approach to dentistry, Dr. Nanda and her staff offer all of the most popular dental treatments, including preventative exams, restorative care, and cosmetic procedures, among others such as dental extractions, root canals, Invisalign treatments, dental implants, and dental emergencies. For a more complete transformation, patients are encouraged to work with experienced Hartford dental professionals to combine multiple treatments for a complete smile makeover.

Academically, Dr. Nanda graduated with her Doctor of Medicine in Dentistry degree from the Henry M. Goldman School of Dental Medicine at Boston University in 2011. She then went on to perform her General Practice Residency within the Dental Department at Brookdale University Hospital and Medical Center, where she was awarded Resident of the Year in 2012.

Certificated in Invisalign, she has completed a certification course with Implant Pathway. She is also a part of the team of dental specialists at New Image Dental in Hartford.

Working hard to stay abreast of the latest advances in dental care, Dr. Nanda participates in regular continuing education seminars and advanced training courses. She is a proud member of several professional organizations that promote education and advancements in dental and oral health care, including the American Dental Association, the Connecticut State Dental Association, and the Hartford Dental Society.

It is because of Dr. Nanda's dedication to improvement and growth in a variety of dental technologies, treatments, and procedures that Hartford area dental patients receive the most advanced, efficient, and effective general and cosmetic dental care available.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions, and perform other duties to ensure that the teeth and mouth are healthy.

Happily married, Dr. Nanda and her husband reside in Simsbury, Connecticut along with their two young children. Her husband is a physician at St Francis Hospital, Hartford. In her spare time, she enjoys listening to music, traveling, and hiking with her family.
