

Omo Phola Release Newest Single "African Beauty"

Omo phola aka Boiphill Baby international super star an award winning artist singer and a performer

Indiana, Muncie, May 7, 2021 (Issuewire.com) - An Afro Beat, Afro Pop singer-songwriter, and upcoming performer from South Africa. African Beauty is the new hit single released by Omo Phola, a sultry, hot rhythmic melody, filled up with deep sensual animalistic hedonism. African Beauty is catchy, trendy, and a very modern Afro, and Dancehall Reggae vibes. The song is very well composed and well written, and just by listening to the verses, the way the artist creates the bridge and tops it off with a

mesmerizing chorus line, make this song one for the Spotify saves and playlists. Omo Phola is an artist that is steadily owning his own, working hard, constantly grinding to master the skills to be the best and eventually the greatest singer, songwriter, and renowned performer, not just in his own continent of Africa(South), but, the entire globe. African Beauty is a celebration of females across the world, young, old, black, white, whatever ethnicity, demographics, religion, or creed you are, this song celebrates your beauty, to embrace it, inside and out. African Beauty is set to be released all across the globe on May 7th, 2021 right on the eve of "Mother's Day." Omo Phola, write, composed, sing, and perform this one for all you mother's out there, and mother's to be, this song is for you.

Omo Phola is known for other massive hits like; Show Me Love, My Zulu Baby, E Money, Mummy I Love You, Sweet Love, Turn Around, and many more.

Like all his other hits, African Beauty can be downloaded or streamed on Apple Music, YouTube, Spotify, YouTube Music, Pandora, IHeart Radio, Deezer, iTunes, Tidal, and many other digital platforms.
