## Market Trends

The portable oxygen concentrators market is primarily driven by the rising prevalence of respiratory diseases, such as chronic obstructive pulmonary disease (COPD), asthma and respiratory distress syndrome. Besides this, several technological advancements have prompted manufacturers to introduce compact concentrators with improved design and mobility. Moreover, with the outbreak of coronavirus disease (COVID-19), there has been a significant demand for portable oxygen concentrators as patients with COPD, pre-existing asthma and other lung problems require these devices to maintain an adequate concentration of oxygen.
