

Preferred Systems Solutions (PSS) is now Solerity!

Effective May 4, 2021, PSS and its subsidiaries are now Solerity, Inc.

Virginia, Reston, May 4, 2021 (IssueWire.com) - Effective May 4, 2021, PSS and its subsidiaries are now Solerity. The company is comprised of several very successful Information Technology (IT) companies that have been operating as individual entities since 1998. The time is right to bring these entities together as one highly focused entity performing under a unified vision and mission. Integration has the added benefit of generating positive energy for our employees and other stakeholders as well as stimulating growth. The formal Rebranding launch will occur at Solerity headquarters in Reston, Virginia, and at our satellite office in O'Fallon, Illinois.

At Solerity, our vision is to harness the power of tomorrow's technology to accelerate National Security today. Our mission is to deliver innovative solutions by identifying and resolving our customers' complex problems utilizing proven engineering principles, mature technologies, and optimized business processes that adapt to a rapidly changing operational and technical environment. We believe the Solerity brand signifies both.

"Solerity signifies everything that our team stands for and provides a platform to expand our solutions set as one team. We are transforming from a team of individual contributors/entities to a strong, unified, and focused organization with the talent and solutions to tackle our most pressing National Security issues." —Babs Doherty, President and CEO

Our unique company name and brand design represent our commitment to our vision, mission, and company culture. Our logo begins with a special "S" that emphasizes our dedication of 'Speed to Mission' and is punctuated with a powerful and enduring symbol of movement and progress. The name Solerity is a melding of 'sol,' the prefix of a solution, and 'celerity,' from the Latin 'celer' meaning swift or speedy. The red, white, and blue colors in our logo reflect our company's focus on government and National Security solutions.

"Solerity reflects the company's commitment to its customers' mission-critical work both in choice of name and brand identity. Our unified company will continue its commitment to innovation and development of sophisticated offerings to meet an increasing array of challenges." – Jeffrey Mark, Partner, CM Equity Partners
