

Quanterm Logistics Certified to Good Distribution Practice for Medical Devices

License No: MDA-1958-D121

Selangor, Shah Alam, May 5, 2021 ([IssueWire.com](https://www.issuewire.com)) - Quanterm Logistics Sdn Bhd recently announced that it has achieved the certificate of GDPMD - Good Distribution Practice for Medical Devices. Quanterm has gained the official license released by Medical Device Authority Malaysia (License No: MDA-1958-D121), which indicates our compliance with the GDPMD rules in handling all the Import & Export activities, Storage & Handling, Warehousing & Distributions, Transportation and Documentation as well as the traceability of medical devices.

This accredited certificate was issued by the Medical Device Authority Malaysia which has assessed Platinum Shauffmantz Veritas against defined criteria and in cognizance of the Medical Device Act 2012 (Act 737). Maintaining medical device safety and reliability throughout the supply chain & improving quality assurance throughout the distribution process is a key priority for the Medical Device Authority of Malaysia.

With this certificate & license, Quanterm ensures have a standard distribution system in place for medical device products. This implies that the quality of the medical devices is retained throughout the storage and distribution process.

Quanterm has extensive experience in handling pharmaceutical and medicinal commodities, ensuring that every step of the process, from storage and handling, documentation to distribution, is carried out in compliance with the highest quality and safety standards.

Pharmaceutical or Medical related traders or manufacturers may reach Quanterm via enquiry@quanterm.com if there are any needs or demands in logistics support.

About Quanterm

Quanterm Logistics was established in June 1992, with headquarters located strategically at Shah Alam, Selangor, Malaysia, and 4 local branches. Quanterm started the business as an LCL consolidator, providing services for the domestic and international markets. Over the years, Quanterm has expanded to a wider network with services available to more than 600 destinations worldwide. Besides being a Master LCL Consolidator, we offer extensive services and strive to be the best total logistics, solution partner.

Quanterm works closely with Custom and Excise to provide extensive services to our customers. As of 2020, we have developed overseas branches in Indonesia, Australia, the Philippines, Vietnam, Cambodia, and Myanmar.
