VOTE FOR REMOTE WORK

IMPORTANCE FROM EYES OF
AN ENTREPRENEUR

MUDIT GUPTA

Illinois, Elgin, May 7, 2021 ([Issuewire.com](https://www.issuewire.com)) - Renowned computer science engineer and startup entrepreneur, Mudit Gupta has released an eye-opening book on the necessity of remote working in recent times. The book 'VOTE FOR REMOTE WORK: Importance from Eyes of An Entrepreneur' is available in Kindle Edition on Amazon <https://www.amazon.com/VOTE-REMOTE-WORK-Importance-Entrepreneur-ebook/dp/B093C86SSK/>. The book talks about how remote working can help both organizations and employees building a much smoother work process. He presents his own rendition of the aspect and sheds light on the benefits of working remotely. He hopes to simplify the complexity that both employers and the employees face while they are first introduced to remote working. The Kindle version of the book is only \$5.05 and the paperback edition can be bought at \$9.99.

There are certain workers, like sales teams, field, engineers, and more who have to come to the workplace due to the nature of their work. But not all the employees are to be put in the same category. A wide range of workers does not need to go to a particular place for their work. With the right tools, they can make any place their workplace. It eliminates many limitations offering seamless workflow. It can be extremely beneficial for companies of all scales. The book, 'VOTE FOR REMOTE WORK: Importance from Eyes of An Entrepreneur' points out the advantages of working remotely and tries to decode the stigmas around it. It also shows the ways that a company can implement it effectively and make profits with it.
