Whizscholar - A Comprehensive Scholarship Program Aimed at Universities and Institutions

Karnataka, Bengaluru, May 13, 2021 (Issuewire.com**)** - Whizlabs, being one of the best Online Technical Training providers across the globe, has launched a scholarship program called '**Whizscholar**'. The comprehensive scholarship aims at universities and institutions to align their students with the latest technologies that could help them in their future careers.

Whizscholar requires no joining fee or annual charges from universities and educational institutes. The program allows universities and educational institutions to let their students purchase Whizlab's most reputed Practice Tests and Online Courses at a minimal cost. It also provides all its courses for free for five meritorious students selected by the universities and institutions. The only requirement here is for the universities to become partners of Whizscholar so that they can reap all the benefits provided in the program.

Here are the benefits that the partner universities get from this scholarship:

- The partner universities will be able to offer any three courses from whizlabs website to their students. The students get 100% free Access to any three courses listed on whizlabs website
- The students of the partner universities will be eligible for upto 60% discount on our premium content on the cloud, big data, DevOps, agile and scrum, and all the other courses that Whizlabs provides.
- 3-month free access to the Cloud labs (AWS, Azure, and Google) to eligible students of the partner universities.
- Whizscholar's partner universities can choose upto 5 meritorious students every year who get 100% scholarship on all courses provided by Whizlabs.

The interested placement officers, universities can apply for a scholarship here: https://www.whizlabs.com/whizscholar/

Recently, the Whizlabs editorial team had curated and published a list of 150+ Cloud Thought Leaders and New Generation Leaders of 2021. Whizscholar is a new measure to create a path for future Thought Leaders and New Generation leaders in all disciplines.

Whizlabs started its journey in 2000 and has changed the game for professional certification training for various disciplines such as Cloud Computing, Java, Big Data, Project Management, Agile, Linux, CCNA, and Blockchain. **Whizscholar** will definitely open up a path for universities and institutions to guide their students through all these technologies and respective certifications.
