

Why Facility Management Is An Ever Growing Sector In UAE

The demand for facility management services are at their highest ever

United Arab Emirates, Dubai, May 18, 2021 ([Issuewire.com](https://www.issuewire.com)) - the number of [facility management companies in the UAE](#) is witnessing a rapid increase as in recent years facility management has become a more valued sector of UAE. According to P&S Intelligence, Demand Analysis Report for the UAE Facility Management Market Revenue Forecast 2021-30, the UAE facility management market was valued at \$14,360.2 million in 2020 and is expected to demonstrate a CAGR of 10.8% during the forecast period (2021–2030).

The growth of the facility management sector of UAE is a result of the direct contribution made by the growth in other sectors. The construction, tourism, hospitality sectors have been major contributing elements in the expansion of facility management companies in the UAE list. These sectors require facility management services very frequently. The mosques, shopping complexes, hotels, restaurants and resorts, malls, etc all have a demand for security services as well as maintenance services. However, the outbreak of the pandemic and shut down of the sector resulting in it was a setback for the facility management companies in UAE for quite some time.

Apart from that, the reason for the growth of the sector has been the essential services included in the catalogue of the facility management companies in Dubai list, Abu Dhabi, and others in the UAE. Cleaning, security services, electrical services, property management, catering, and support are some of the important services provided by facility management companies in the UAE. In the UAE, there is a rapid demand for better property management for which the facility management companies in UAE list various integrated services to offer to the customers. Also, the developing necessity for the customary upkeep of heating, ventilation, and air conditioning (HVAC) systems and electrical equipment at offices is impelling the headway of the facility management companies in Dubai list.

The [facility management companies](#) in UAE regularly cater to clients across the residential, commercial, and industrial sectors. Among these, the share of the services required in the commercial sector is the highest. Not only do these require top-notch security and cleaning services but require Soft Facility

Management Services as well. These services provided by the facility management companies in UAE include contract and procurement management, lease accounting and renting, etc. One thing to note is that the facility management companies in Dubai list see the most additions every year as Dubai is an important commercial center of UAE. What we can expect from his growth is that the sector is definitely a boon for growth and a hub for investments. From the perspective of the end-user, the facility management companies in UAE provide high-quality services to all types of clients. They have expert teams of technicians who are experienced and skilled at their job and leave the clients in awe of the management services.
