Address.in- The Virtual Office Company, Saving Millions of Rupees of Entrepreneurs Across India, that is Unknowingly invested on office infrastructure.

Delhi, New Delhi, Jun 4, 2021 (Issuewire.com) - Address.in- The Virtual Office Company was founded back in 2018, with the vision to provide a business solution to entrepreneurs by shifting their conventional mindset and enabling them to scale their business without incurring the bad cost. It is an aggregation business of shared offices and has a presence across India in all 28 states. Address.in

Virtual Offices are professional business centres and co-working with all the amenities like conference room, workstations, internet, cafeteria etc that are required while working remotely.

The company works with an intention to provide Virtual Office Business Solution to the businesses, start-ups, and enterprises in their new and Existing ventures, by providing them commercial addresses of Business Centre's and Co-working spaces for GST/Business Registrations requirements without exhausting resources on expensive physical infrastructure and **saving up to 95% Business Bad Costs**. The company is currently catering to more than **5000 customers** across India, **saving 75Cr of the business bad costs, to date**.

Along with the Virtual Office Solution, keeping in mind the increase in business travel and mobilisation in today's date and age, Address.in offers an interesting product called Address Pass. It is the **Flexible Workspace Solution** that provides you smooth access to a wide range of co-working spaces and business centres across the country. One can book and pay as per the usage and with only ONE pass, can have the flexibility to choose a location to work anywhere in India.

By the year 2040, the company aspires to save 400 million (INR) of Business Working Capital which is badly invested in Office Infrastructure UNKNOWINGLY by bringing transformation in the Conventional Mindsets of 3 million businesses. It also aims to have global operations across all major countries like America, Europe, East Asia, Middle East.

The company provides a Unique Value Journey to the customers, especially for the e-commerce businesses, for APOB and VPOB requirements who wish to expand their reach across various states.
