

Ali Azadi, MD, MSc, MBA, FACOG, FPMRS, a Urogynecologist with Star Urogynecology

Get to know Urogynecologist Dr. Ali Azadi, who serves patients in Phoenix, Arizona.

New York, New York City, Jun 29, 2021 (Issuewire.com) - Recognized as a reputable urogynecologist, Dr. Azadi is the Medical Director at Star Urogynecology in Phoenix, Arizona.

He offers an advanced minimally invasive approach to various pelvic floor problems such as pelvic organ prolapse, urinary and fecal incontinence, and conditions such as overactive bladder, interstitial cystitis, genitourinary fistulas, and pelvic pain. He also has expertise in robotic (da Vinci®) and laparoscopic surgeries as well as minimally invasive vaginal surgery and has performed more than 1,000 successful robotic surgeries including the most advanced single-site approach.

Every woman deserves to receive the highest quality of care, the most technologically advanced, and the least invasive treatment. The team at Star Urogynecology is proud to offer cutting-edge novel treatments by being highly specialized in the field of female pelvic medicine and reconstructive surgery. They are passionate about the care they provide to their patients. Each member of their team will put all the effort into treating every patient like a family member. They like to counsel their patients extensively and empower them to make the best-informed decision to restore their quality of life.

Before joining Star Urogynecology, Dr. Azadi was affiliated with St. Vincent Hospital for Women & Children. Previously, he was on staff at Norton Women's Specialists – Urogynecology and served as a Clinical Assistant Professor within the Department of Obstetrics & Gynecology at the University of Louisville.

Regarding his educational background, Dr. Azadi earned his medical degree from the Shahid Beheshti Medical University in Tehran, Iran. After relocating to the United States, he completed his residency in obstetrics and gynecology at the University of Tennessee, Memphis in 2008.

After finishing his residency, he completed a three-year fellowship in female pelvic medicine and reconstructive surgery (urogynecology) at the University of Louisville under the directorship of Dr. Donald Ostergard. During his training, he had the opportunity to have first-hand training from world-renown experts and pioneers in the field of urogynecology and minimally invasive gynecology. Dr. Azadi is proud that he had the unique chance to receive training from Dr. Ostergard, who is also known as one of the founders of urogynecology. He also had the opportunity to have Dr. Resad Pasic as a mentor, who is known as a world leader in the field of minimally invasive gynecology and has served as the president of the American Association of Gynecologic Laparoscopy.

Following the completion of his fellowship, Dr. Azadi joined the University of Louisville and was involved in teaching residents and fellows. He also earned a master's degree in clinical research from the University of Louisville's School of Public Health, and a Master of Business Administration degree in Healthcare Management from the University of Louisville.

A Fellow of the American College of Obstetricians and Gynecologists (ACOG), he is board-certified in obstetrics and gynecology & female pelvic medicine and reconstructive surgery (FPMRS) by the American Board of Obstetrics and Gynecology (ABOG). The mission of the ABOG is to define specialty standards, certify obstetricians and gynecologists, and facilitate continuous learning to advance knowledge, practice, and professionalism in women's health.

Due to his experience and contribution to existing literature, Dr. Azadi is considered one of the experts in the management of patients with mesh complications. He has presented many articles and surgical videos at prestigious national and international scientific meetings such as the International Urogynecological Association, the American Urogynecologic Society, and the American Association of Gynecologic Laparoscopy. He has helped patients from around the country and has performed

hundreds of mesh excisions for the candidates who would benefit from this approach. He has also been actively involved in clinical research and has published in several peer-reviewed journals.

Urogynecology or urogynaecology is a surgical subspecialty of urology and gynecology. Urogynecologists handle issues related to the pelvic floor and bladder. This includes overactive bladders, weak pelvic muscles, reproductive issues, and bladder or rectal incontinence (the loss of control when going to the bathroom).

As a testament to his excellence in the field of obstetrics and gynecology, Dr. Azadi has won several awards including the prestigious CREOG faculty teaching award and “Top Doc” honors. He has been designated the surgeon for excellence awards such as COEMIG and SOERS (Surgeon of Excellence in Robotic and Minimally Invasive Gynecology).

On a more personal note, Dr. Azadi is married and has 2 daughters. When he is not at work, his biggest joy is spending time with his family. In his spare time, he enjoys outdoor running.
