

AVerMedia's PW315 Full HD Webcam Now Certified for Zoom

The PW315 and Zoom make for a simple yet powerful hybrid work solution

Bristol, Avon, Jun 30, 2021 ([Issuewire.com](https://www.issuewire.com)) - AVerMedia Technologies, Inc., a leader in audiovisual technology, is pleased to announce that the **PW315 full HD webcam** has been granted Zoom certification. Combined with Zoom the PW315 makes professional-grade video conferencing available to nearly anyone, creating the perfect solution for the hybrid workplace.

AVerMedia PW315 Webcam Features

The **PW315** is a 1080p 60 fps webcam with a 95° field of view perfect for both one-on-one and huddle room conferencing. Its high frame rate ensures blur-free video, so collaboration will be lifelike whether from home or the office. When used with AVerMedia's free Camengine app the PW315 supports advanced features that make conferences both easier and more dynamic, such as ePTZ (digital Pan Tilt Zoom) with 2x high-definition zoom and speaker tracking. All these features can be seamlessly accessed from within Zoom.

"By matching our deep experience in the audiovisual field with Zoom's innovative platform we have created a versatile solution perfect for hybrid work," said Michael Kuo, President, and

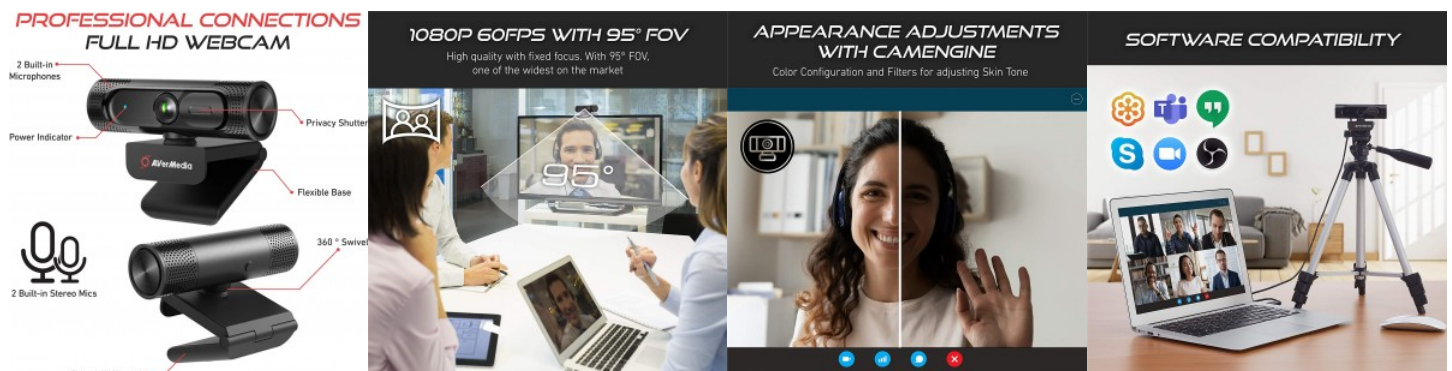

CEO of AVerMedia. **“Right when a return to the office is beginning, we have a solution that perfectly meets the needs of all kinds of workplaces.”**

Zoom certification involves extensive testing for quality and compatibility with Zoom’s platform. With the PW315 surpassing this high bar, users can be certain that it will work seamlessly with Zoom and reliably provide excellent video and audio quality. Previously AVerMedia’s [PW513](#) was the first 4K webcam to receive Zoom certification for personal workspaces.

AVerMedia is leveraging its audiovisual industry leadership to continue to create new collaboration solutions that combine powerful, versatile features with a user-friendly design. In addition to the PW315 and PW513, recent releases include the [PW310P Autofocus Webcam](#) and the [AS311 USB Speakerphone](#), which feature AI-powered noise reduction that prevents loud noises such as dogs barking from disrupting meetings. The AS311 can be paired with the PW315 to create a simple yet powerful audiovisual solution for both huddle rooms and individual video conferencing.

The PW315 is now available at [Amazon](#) for a suggested list price of £109.90.
