Beaufond foundation, 'a Public Charitable Trust' established by Beaufond Plc in the year 2009, and one of the activities is to provide aid by way of donations/kinds to different charitable institutions, societies, organisations, or Trusts across the globe.

This press release exhibits the resolve of the 'Trust' in fighting the pandemic by undertaking charitable initiatives.

Beaufond foundation communicates that with the help of Beaufond Plc, leading traders and distributors in Pharma products globally, along with their contract manufactures, by temporarily shifting manufacturing operations at two chemical manufacturing plants to produce and donate Masks and hand sanitizers to Beaufond foundation, further to distribute to the public in the needy countries through NGOs and various charitable organisations.

In 2019-20, the Beaufond foundation has offered gifts (clothes) to a charitable organization that provides (gifts) directly to the deprived in West Africa and India. Beaufond foundation believes that donating old clothes to charity is a way to recycle and stop clothes from going to waste, though there are pros and cons to be considered.

Beaufond Foundation proudly announces that the employees of Beaufond Plc spread globally contribute their one-month salary for the noble cause.

But in face of this potential hit, Beaufond Foundation announced a donation of five million face masks and one million hand sanitizers to various countries facing hard struggles with the virus and has ramped up trials on diagnostic testing measures.

Beaufond foundation states that donation has been just the beginning of a long and winding path that can terminate thousands of kilometers by an ocean away. Beaufond foundation has always been in a sight of the smallest act of kindness which is more than the grandest intention.
