

Bygrad Joins IBM to deliver high-demand skills in India

Karnataka, Bengaluru, Jun 1, 2021 ([Issuewire.com](https://www.issuewire.com)) - BENGALURU: Ed-tech startup Bygrad on Tuesday said it has collaborated with IBM. Bygrad, India's leading ed-tech company, today announced its Post Graduate Data Science program in collaboration with IBM. This Program, offered in India, is the latest addition to Bygrad's world-class programs offered in collaboration with IBM.

The PG Data Science Program is designed to meet the needs of young professionals and mid-career professionals seeking to get world-class management education specifically designed. According to a

report by IDC, 45 percent of all technology spending will go towards AI transformations, with enterprises spending in excess of \$3 trillion by 2020. In all, 89% of enterprises have plans to adopt or have already adopted an AI-ML business strategy with Services (95%), Financial Services (94%), and Healthcare (93%) leading all industries.

The PG Data Science program covers AI Machine Learning & Neural Network topics. This 12-month program is offered in an online format with video content and live classes from faculty from IBM along with personalized mentored learning sessions from industry experts. Learners will also get the opportunity to showcase their skills by building a digital e-portfolio which can be shown to current and future employers as a tangible body of work.

Abhimanyu Yadav, Founder, Bygrad, said “We are excited to collaborate with IBM the Post Graduate Data Science Program. This is where such a program offers a significant advantage to professionals who are looking to step into management and leadership roles.”

About Bygrad:

Bygrad is India's leading ed-tech company focused on upskilling working professionals and students.
