The Indian real estate industry is the most valuable asset for everyone. But still, there is a scarcity of competent builders, brokers, and investors in the real estate industry. The real estate industry is in second place in terms of contributing to our country's Global Transaction Banking. Yet, economically it is considered to be a very unorganized and disrupted sector. And also assumed as dicey by many investors. But if you have discernment and are aware of fluctuating phases of the real estate sector, you can definitely earn a huge amount.

Today there are many books in the market on 'real estate' which merely thrive upon theory rather than practicality. One must understand the simple fact that there is a huge difference between bookish theories and practical precepts. These books are far from reality. They try to create an illusionary picture of effective investment theories. In fact, when you try to implement those theories you tend to get disilluminated and frustrated. With the help of dynamic marketing strategies and cheap publicity stunts, these books survive for a very short period of time.

So whether you are a first-time homebuyer or a third-time home seller or anyone interested in RealEstate. We know the real estate transaction can be confusing and stressful But don't be tensed anymore — Mr. Vijay Wankhede has brought a book for you all which compiles the glossary of the important terms, guidelines, and principles you should know and familiarize yourself with to help you better understand what's going on with Real Estate.

For beginning investors, commercial brokers, and sellers as well as buyers and for everyone interested in realestae, this book is a must-have. So do not wait to place the order for the book, learn the entire concept of real estate and make the finest decision of your life through your Real-estate business!
