

Charity NFT Marketplace To Launch Token PreSale Of Kuma Coin on Unicrypt

Innovative NFT marketplace for charity, Kuma Coin, announces the launch of the presale on Unicrypt

British Columbia, Vancouver, Jun 11, 2021 ([Issuewire.com](https://www.issuewire.com)) - The Kuma Coin project is taking a step towards achieving the goal to help 1 million children across the globe with the planned launch of the presale on Unicrypt on June 22. The whitelist was scheduled for June 8th as the [Charity NFT](#)

[marketplace](#) aims to raise funds to support charitable organizations in different parts of the world while rewarding holders of the token.

Child poverty remains one of the major problems that the world is currently facing, with a recent report stating that over a billion children live in abject poverty, with about 356 million of them surviving on less than \$1.90 a day. Consequently, there has been an increase in the number of children without access to quality health, education, food, water, or housing. Therefore, it has become imperative for well-meaning individuals and corporate bodies worldwide to contribute to alleviating the suffering of these people. [Kuma Coin](#) is taking the campaign a notch higher by allowing people to be a part of the fast-emerging non-fungible tokens (NFT) market to earn and contribute to donating to children-focused charities.

The Kuma Coin project has an all-inclusive ecosystem that includes an NFT marketplace, an NFT charity wallet, and a token. The presale of the token will commence on June 22nd via Unicrypt and will be subsequently traded publicly on pancakeswap and available on all major digital currency exchanges later in the year. All Kuma Coin trade transactions after the presale will be limited to a maximum of 0.5% of the total supply to prevent any single holder from manipulating the market.

For more information on the Kuma Coin project, how to help 1 million children in need worldwide, and how to buy on pancakeswap, visit <https://kumacoin.charity>.
