

Danny's Ice Cream Announces Becoming Approved Vendor

Authorization Brings Delicious Ice Cream to Even More Municipalities in Southern California

California, San Diego, Jun 15, 2021 (Issuewire.com) - Danny's Ice Cream of San Diego, CA announced today that they are expanding their services in the cities of Santee, CA and La Mesa, CA now that they have become an approved vendor for local parks in both cities.

Being an authorized vendor simplifies the procedure for obtaining permits, which are required to serve food in public places. Long gone are the days of the ice cream truck just showing up at parks. The majority of cities require extensive paperwork, permits, insurance, and fees to become an approved vendor. Danny's Ice Cream is excited to be an approved vendor for both La Mesa and Santee Parks and Rec.

"Becoming an approved vendor is really exciting," stated Dan Hart, the owner of Danny's Ice Cream, "Because we'll be able to expand on our motto 'creating memories, one ice cream at a time.'" This is especially true since Danny's is currently the only truck permitted within La Mesa's parks, providing the community with new opportunities to enjoy frozen treats while enjoying the local recreation.

Danny's will presently be offering party packages that start at \$99, which include the ice cream. That

way, special events in San Diego, as well as La Mesa and Santee, can be even sweeter.

Danny's Ice Cream Truck is in the business of Creating Memories, Once Ice Cream at a Time.
