How does Dentitox Pro work?

The vitamins, minerals, and natural ingredients present in the Dentitox Pro work towards protecting the health of teeth and gums.

The ingredients present in Dentitox Pro contribute towards tightening gums and may cure the problem of swollen and bleeding gum.

Besides, the vitamins and minerals present in the Dentitox Pro, also have some antimicrobial properties that may prevent any sort of oral infection.

You may smell fresh due to the presence of **mouth-freshening ingredients such as cinnamon and peppermint** in the liquid formula of the Dentitox Pro.

To learn more about how the Dentitox Pro works you can [read more here](#)

Creator of the Dentitox Pro

The Dentitox Pro has been created by **Marc Hall**, a 54-year-old man, who lives in Martha near Charlotte of North Carolina.

Marc Hall made this strong formula using varied plant extracts along with vitamins and minerals that resulted in the formulation of the Dentitox Pro.

For more information on how the product was created and all the back-end stories behind it, you can [watch this video](#).

What are the Ingredients of Dentitox Pro?

Marc Hall made use of a combination of vitamins, minerals, plant, and synthetic ingredients to make this

liquid formula

- **Collagen:** It is a protein found in the human body that gives the bones a sturdy structure. Collagen, especially, bovine collagen is effective to cure gum-related problems and strengthen the tooth roots.
- **Elderberry:** It is a flowering plant that produces berries rich in antioxidants and essential vitamins. According to research studies, elderberry is effective as a mouth washing agent. It also aids to cure gum inflammation, swelling, and cavities.
- **Sage:** Like elderberry, sage is also believed to act as a good mouth washing agent. It is an evergreen shrub that contains antioxidants and enhances the body's immune system. Plaque can also be cured by sage.
- **Peppermint:** It acts as a cleansing agent and eliminates the bacteria and fungi from the mouth. Peppermint lets you have a fresh smell by helping you get rid of plaque and microbes.
- **MSM:** MSM stands for Methylsulfonylmethane. It is an organic compound that cures joint inflammation. Gum diseases can also be cured by MSM.
- **Cinnamon:** It is a spice ingredient used in preparing dishes. Cinnamon is highly effective to treat plaques, gum infections, and cavities. It also aids in killing the bacteria and fungus buildup in the teeth.
- **Neem:** The use of neem barks, for ages, as a toothbrush to clean teeth is not new. It is highly effective to cure gingival problems and relieves you from tooth pain.
- **Xylitol:** Present in varied fruits and veggies, Xylitol is a kind of sugar alcohol that aids in curing the decay of teeth. It makes the bacteria starve, thus killing it and relieving you from plaque and infections.

Other essential vitamins and minerals used by the creator in preparing the Dentitox Pro include the following:

- Vitamin A
- Vitamin C
- Vitamin D3
- Vitamin K2
- Zinc
- Potassium
- Phosphorus
- MEC or Micro-encapsulated Calcium
