

EAXPRTS scale up Engineering Animation Services with WebXR

WebXR or Extended Reality Experience service is the new frontier that combine AR, VR & MR to provide unmatched 360-degree experience in Engineering Animation Services.

Maharashtra, Pune, Jun 7, 2021 ([Issuewire.com](https://www.issuewire.com)) - EAXPRTS, the virtual 3D Engineering Animations Services, and future-forward experiences company is now offering WebXR or Extended Reality Experience services to industries. WebXR refers to the combining of all real-and-virtual environments like Augmented Reality (AR), Virtual Reality (VR), and Mixed Reality (MR) computer simulations and is an emerging concept. It takes the MR experience to the next level by creating 360-degree image-based, extended reality experiences that can be accessed through a web browser.

While XR is presently used in the games and entertainment industry, it is still an evolving technology yet to reach its full potential. But EAXPRTS has used its extensive experience in engineering animation services to launch WebXR which can be used to effectively demonstrate products, processes, services, and concepts in the industrial world. Hotspots and interaction avenues can be provided to make the experience more interactive and in-depth. WebXR can be natively installed and demonstrated using a PC/Laptop and can be also mirrored on a touch screen LED display or a kiosk to provide a real-life walkthrough experience.

WebXR can be used in all applications like Marketing & Sales Presentations, Exhibitions & Trade Shows, Training, Installation & Commissioning, Maintenance Services, and Facility Tours that currently use various levels of animation services, to further enhance the experience. These solutions can reduce costs, increase revenue and productivity, and improve customer experience.

EAXPRTS has more than 500 years of combined expertise in Engineering (Mechanical, Structural, Electrical, Automation, and Robotics), PLC programming, Software development, Manufacturing domains, and Project management experience. Together, the company delivers precise animations depicting real-life situations and helping clients connect with their customers instantly.

With more than 20 years of existence and with state-of-the-art infrastructure, [EAXPRTS](https://www.eaxprts.com) can deliver spectacular animations and WebXR experiences in the shortest turnaround time.
