About the Engaging Speakers Association: The Engaging Speakers Association was created for our purpose: to help entrepreneurs, small business owners, speakers, authors, and non-profit leaders speak their way to more business. The ESA helps speakers create a 30-second introduction so they can ditch the elevator pitch and have people say, “Wow, I would love to connect with you!” When you’re

ready to develop a signature talk that will highlight your expertise and attract your ideal clients, the ESA is where you want to be. Don’t just learn how to speak in front of an audience, learn how to generate leads with speaking and build a consistent, predictable cash-and-lead-generating machine for your business.
