

GAUDIUM IVF: Transforming Your Sad stories into Successful Motherhood Stories

GAUDIUM IVF: TRANSFORMING YOUR SAD STORIES INTO SUCCESSFUL MOTHERHOOD STORIES

Delhi, New Delhi, Jun 12, 2021 ([Issuewire.com](https://www.issuewire.com)) - Hearing infertility from the doctor, getting multiple treatments, and still no positive results might bring your dreams crashing down and you might think it's the end of the world for you, but why let such thoughts cripple you when the infertility treatments have gone through a sea of revolution, and now India has become one of the favourite countries across the world for getting [infertility treatment](#).

GAUDIUM combines highly advanced reproductive state-of-the-art technology with individualised treatment protocols to achieve positive results for our patients, many of whom have given the hope of ever becoming a parent.

[Gaudium IVF](#) made the way in building families and brought a lifetime of joy to couples across the world. We are pleased to share with you one of our many triumphs of making such couples into successful parents. We'd like to express our sincere gratitude to the couples who have agreed to share their experiences with others who may be facing similar challenges.

GAUDIUM miracle baby born after 15 failed IVF cycles

Hailed as the GAUDIUM IVF miracle baby, this baby was born in the very first successful attempt at GAUDIUM after [15 failed IVF cycles](#) (1 in UK and 14 in India).

Mrs. Saphla Rani Bhatia, 55 years of age, had undergone multiple failed fertility treatments at renowned clinics in India and abroad, completely disheartened and hopeless, she visited GAUDIUM. She had severe [Polycystic Ovarian Syndrome\(PCOS\)](#) which had prevented her from conceiving naturally. At GAUDIUM IVF, she was treated for PCOS and poor endometrial receptivity through a special treatment protocol. She was also treated for high blood pressure and high blood sugar and was given hormone therapy to restore her hormonal balance. After taking these measures, Saphla Rani delivered a healthy baby boy through [IVF](#).
