

How Mumbai Based JKURVE aims to bridge the Skill Gap with Digital Marketing + AI. Don't Pay FEES until you Land a JOB !

Maharashtra, Mumbai, Jun 28, 2021 ([Issuewire.com](https://www.issuewire.com)) - Mumbai Based JKURVE is an advanced training hub that trains Technical Marketing with AI aspirants in Paid Media, Social Media Marketing, Organic Google SEO. The programme allows students to pay the course fee after they get a suitable job.

If you keep an ear to the ground, You will be well aware that **India's youth isn't job and future-ready**. Pain points that Co-founders [Sudhir Chaurasiya](#) & [Roshan Nane](#). aim to solve with **JKURVE**, which offers learning programmes to create skilled professionals.

The **Mumbai-based startup**, which was launched in 2018 is open to anybody seeking training in Technical Marketing. Surprisingly, **learners are enrolled for free upfront**.

JKURVE offers the 15 Weeks, Technical Marketing with AI along with personality development and soft skills coaching. **They can pay for the course** after getting a suitable job.

"If students do not get the job on completion of the course, they need not pay anything," says JKURVE Co-founders [Sudhir Chaurasiya](#) & [Roshan Nane](#).

With Companies now focusing more on skill sets rather than educational backgrounds, the **JKURVE aims to fill India's Digital India skill gap.**

How does it work?

JKURVE, which has Online Presence across PAN India, Offers 15 weeks LIVE and 100% remote sessions. Pay NOTHING until you land your dream marketing job. The courses are well customized to fit both college graduates as well as working professionals.

JKURVE will provide you 1-on-1 mentorship, career preparation, and access to your favorite tech companies and agencies. By the end of the program, you will have hands-on experience in marketing and many more. There are two payment options, with one being the conventional upfront payment and then the ISA.

Considering all of us come from a Digital Marketing background, **we are already aware of what the industry looks for.** But we are keen to make the student's **holistic growth hackers** rather than train them with limited tools and languages in a limited capacity.”

Apart from technical skills, the school also equips candidates with **soft skills and analytical thinking.**

Placements

JKURVE has individually trained and placed more than 200 + students who were looking forward to establishing their presence in the Digital Marketing Industry with their alumni placed in companies including Amazon, Brand factory, Logicloop, Pureplay, Digichefs, Plum, and many more.

Who this course is for:

- Anybody who would like to learn technical marketing to start their career.
- Anybody who is looking forward to a career transition in technical marketing.

Being a self-taught Strategist with a vision to reinvent the Digital Marketing Industry in India. JKURVE Co-founders Sudhir Chaurasiya and Roshan Nane saw a clear market gap for skilled professionals with respect to the increasing demand for digital marketing by various companies to grow their businesses.

Eligibility

Candidates must have cleared Class XII from any recognised board. Regardless of your diverse educational background, JKURVE will help you grow in this Industry.

Needless to say, JKURVE is better than other digital institutes intended to incentivize students that lead to more successful careers.

So what are you waiting for?
