

How to get Cheap cPanel License

Unlimited cPanel license at low cost

The screenshot shows the ServerLicenses website. At the top, there's a navigation bar with links for 24x7 Technical Support, a phone number (888)1234567, a Live Chat button, and links for Login and Register. Below the navigation bar, the ServerLicenses logo is on the left, and links for Home, Licenses, and Support are in the center. A 'Get Started' button is on the right. The main content area has a blue background on the left and a light purple background on the right. On the blue background, the text 'Shared Cpanel License at Cheapest Price' is displayed, followed by a description of cPanel as the best control panel for hosting companies. Below this, a list of features is shown: Instant Activation, Free Jetbackup, Free Softaculous, Free Fleetssl, and Free Sitepad. On the light purple background, a white box contains the text 'Start From...' followed by a large '\$6.00 /month' price tag. Below this, it says 'Regular Price \$12.00/mo' and a 'Get Started Now' button. In the bottom right corner, there's a circular logo with the text 'We Are Here' and a speech bubble icon.

Bangladesh, Dhaka, Jun 28, 2021 ([IssueWire.com](http://www.IssueWire.com)) - **cPanel** is a web hosting control panel software developed by cPanel, LLC. It provides a graphical interface and automation tools designed to simplify the process of hosting a website to the website owner or the "end-user". It enables administration through a standard web browser using a three-tier structure.

How To Access Your cPanel Dashboard

Assuming your host uses cPanel, your host should provide you with a direct link to access cPanel somewhere in your welcome emails. But if you can't find that link, here's a shortcut to access your site's cPanel dashboard at any time:

- If your site's URL starts with **http**, append 2082 to the end of your domain.
- If your site's URL starts with **https**, append 2083 to the end of your domain.

About cPanel Pricing:

cPanel is not free because it is a third-party application. However, most hosting providers include cPanel in their hosting plans at no extra cost. There are some providers who will supply cPanel free for the first year, and then charge a fee in subsequent years.

In 2019, cPanel increased its prices and many web hosting companies are considering switching away from cPanel to other website control panels.
